Re: Request for Information
Administrative Order on Consent for Corrective Action ("Order")
Under the Resource Conservation and Recovery Act ("RCRA")
Docket No. 1091-11-20-3008(h)
Rhone-Poulenc Inc. Marginal Way Facility ("Facility")
WAD 00928 2302

Dear Mr. Wold:

The U. S. Environmental Protection Agency, Region 10 ("EPA") has received your letter dated March 18, 2004, stating that hydraulic control of the contaminant plume at the Facility has been achieved. Additional information is needed to complete an evaluation of the performance of the interim measure.

Pursuant to Paragraph 7.3 of the Order, EPA is requesting the following information. This request includes all data, records, reports, field notes, and e-mails through the date of this letter:

1. All water level data collected beginning with the date of completion of the transducer study which was performed from May through July of 2003. Water level data must include any data collected from the extraction wells, in addition to data collected from monitoring wells. Rather than three copies, you may provide one copy of the data in written form, in addition to the required electronic format. Monthly summary reports may be omitted.
2. All operating records beginning with the date the groundwater extraction and treatment system was commissioned (summer 2003), including pumping rates, inspection reports, records of malfunctions and shutdowns, repairs made, and the date(s) operations resumed.
3. Copies of all data and records of treatment system operation, including pre- and post-treatment effluent monitoring.

COPY FILE

4. Copies of all correspondence with King County Department of Natural Resources and/or King County Industrial Waste, including but not limited to any permits or authorizations.

The requested information must be provided within fourteen (14) calendar days of your receipt of this letter. Please contact me at (206) 553-8506, or have your legal counsel contact Jennifer MacDonald, Assistant Regional Counsel, at (206) 553-8311, if you have any questions.

Sincerely,

Christy Brown
